Did you ever eat any alfalfa bread? Drink any alfalfa coffee? Taste any alfalfa layer cake or muffins or cany% Did you ever eat, or hear of anybody eating, a meal that consisted entirely of alfalfa products?

But that is what just 400 people are going to do Monday night in Donotrio hall at the banquet that will mark the close of the Arizona Hay congress. The dinner will start at 6 o'clock and every ticket for it has been sold. And every dish on the tempting menu is made from all the constants.

The Hay congress banquet promises to be a distinct novelty in the history of alfalfa, not only from an industrial but from a culinary standpoint. Alfalfa, only a few years ago, was never hought of event as folder for animals. thought of except as fodder for animals. Perhaps nine people out of ten in the country still think of it as impossible prove for all time that alfalfa and its product are food, and pretty good food at that.
